TITLE Fiscal Guidelines for Federal and State Aided Grants.
INSTITUTION New York State Education Dept., Albany. Bureau of Federally Aided Programs.
PUB DATE Mar 91
NOTE 45p.
PUB TYPE Guides - Non-Classroom Use (055) -- Tests/Evaluation Instruments (160)

EDRS PRICE MF01/PC02 Plus Postage.
DESCRIPTORS Educational Economics; *Educational Finance; Elementary Secondary Education; Federal Aid; *Financial Audits; Financial Support; *Grants; *Grantsmanship; Program Costs; Program Proposals; State Aid; *State Federal Aid
IDENTIFIERS *New York

ABSTRACT

Focusing on New York, this document begins by providing information on the funding cycles and application processes for federal and state grant programs as well as special legislative projects. Five forms with accompanying information on the form's purpose, submittal time, and special instructions are included: (1) Proposed Budget for the Operation of a Federal or State Project (FS-10); (2) Request for Funds for a Federal or State Project (FS-25); (3) Request for Out-of-State Travel Approval for a Federal or State Project (FS-60); (4) Proposed Amendment for a Federal or State Project (FS-10-A); and (5) Final Project Expenditure Report (FS-10-F). Audit guidelines are presented with respect to general criteria, specific costs, and audit procedures. Appended are forms for requesting audit information and for audit verification. (CLA)

I N T R O D U C T I O N

The Fiscal Guidelines for Federal and State Aided Grants consolidates and replaces the *Fiscal Guidelines for Federally Aided Programs* and the *Fiscal Guidelines for State Aided Programs*. As in the past, the forms and instructions contained in the *Fiscal Guidelines* are standard for most programs. However, for certain grants there are additional financial forms that are not included in the *Fiscal Guidelines* but which may be part of a State Education Department program office application.

The *Fiscal Guidelines* is intended to provide general guidance for the financial management of Federal and State grants by local agencies. In addition to these guidelines, projects must be conducted in accordance with applicable Federal and State laws, regulations, and directives, including but not limited to:

- Federal and State Authorizing Legislation
- Title 34 of the Code of Federal Regulations
- Commissioner's Regulations
- State Education Law and State Finance Law
- The Single Audit Act of 1984
- State Education Department Policy.

This publication has been prepared by the Bureau of Federally Aided Programs of the Office of Educational Finance and Management Services, Room 542, Education Building, Albany, NY 12234. All questions concerning its contents should be referred directly to this office. The telephone number is (518) 474-4815.

I. FUNDING PROCEDURES

A. Federal and State Aided Grants

1. Funding Cycles

All Federal and State grant programs adhere to annual funding cycles although there are significant differences between the State and Federal funding calendars.

Federal

The Federal fiscal year runs from October 1 through September 30, although most Federal programs are "forward funded" by the Federal government and thereby made available to the states on July 1, prior to the start of the Federal fiscal year. In addition, most Federal grants are governed by carryover provisions which extend the life of an appropriation for an additional year. Thus, most programs funded through the U.S. Department of Education have an appropriation life of 27 months.

In order to manage local projects effectively and identify expenditure and carryover funds on a local and statewide basis, Federal grants to local agencies are awarded on an annual cycle. In fact, most grants are funded on a school year basis of September 1 through August 31, although certain programs may operate on a July 1 through June 30 basis. The State also has the option to fund projects for a shorter length.

State

The State fiscal year runs from April 1 through March 31. Unlike Federal programs, State programs do not have carryover provisions unless specifically reappropriated by the State Legislature. While State funds may be disbursed up until August 31 following the end of the fiscal year, the limited appropriation life does impose severe restrictions on the time permitted for operation and closeout of individual projects. Thus, in order to manage State funds effectively, local grants are confined to a July 1 through June 30 cycle. Again, as with Federal programs, certain projects may be funded for a shorter duration within that cycle.

2. Application Process

Each Federal and State grant is managed by a specific State Education Department program office. Each year, eligible agencies are notified by the responsible program office of grant application procedures. Upon notification, eligible local agencies generally submit applications subject to the following:

- ❑ The local applicant agency submits the completed application form to the State Education Department program office.
- ❑ The State Education Department program office reviews the grant application and notifies the applicant agency of application approval or disapproval.
- ❑ Copies of the application and budget are sent to the Bureau of Federally Aided Programs for review. Upon approval an automatic first payment is made to the local agency. The amount of the first payment may vary due to statutory, regulatory, or policy requirements. A copy of the approved budget is then returned to the local agency so that any changes can be noted and project accounting records established. Any subsequent budgetary changes requiring State Education Department approval should be requested through the Proposed Amendment for the Operation of a Federal or State Project (Form FS-10-A).
- ❑ Additional payments up to 90 percent of the budget total are generated by submission by the local agency of the Request for Funds for a Federal or State Project (Form FS-25). The report is filed monthly for projects over $100,000 and quarterly for projects of $100,000 or less.
- ❑ Upon completion of the project, the local agency submits an original and one copy of the Final Project Expenditure Report (Form FS-10-F) directly to the Bureau of Federally Aided Programs.

- A desk audit of the FS-10-F is conducted by the Bureau of Federally Aided Programs and a final approved total of project expenditures is determined. A final payment of any balance due to the local agency is then issued, or in the event the local agency has been overpaid, a refund will be requested.

B. Special Legislative Projects

Special legislative projects are State funded grants which are awarded to individual local agencies in accordance with the annual State local assistance budget adopted by the New York State Legislature, and are processed and administered by:

Special Legislative Projects Coordinating Unit
Bureau of Federally Aided Programs
New York State Education Department
Room 540, EB
Albany, NY 12234
Telephone: (518) 473-5733

Major differences between the approval and administration of special legislative projects as compared to other projects are as follows:

- The Legislature itself, rather than the New York State Education Department, designates the recipient local agency and the purpose and amount of each special legislative project awarded.
- The Special Legislative Projects Coordinating Unit, rather than a program office, notifies each designated local agency about its project award, transmits application forms for completion, and receives completed applications and amendments submitted by such agencies.
- In addition to the approval of the New York State Education Department such projects must also receive the approval of the New York State Division of the Budget and the Office of the State Comptroller.
- Payments requested in accordance with the payment schedule indicated in the project application packet must always be accompanied by a program progress narrative report (interim payment) or a final program narrative report (final payment).
- The actual grants for such projects are awarded by the Legislature throughout the school year. However, regardless of the award date, the funding dates for projects will ordinarily encompass the entire school year in which the award occurs. Any exception to the annual school year funding cycle is subject to the approval of the New York State Division of the Budget and the Office of the State Comptroller.
- If the Legislature reappropriates an individual grant for extension through the succeeding fiscal year, a local agency may then apply for a project extension through June 30 of the succeeding year.
- The funding date for an approved amendment is retroactive to the approved beginning date of the special legislative project.

II. FINANCIAL FORMS REQUIRED FOR GRANT PROGRAMS

A. Proposed Budget for the Operation of a Federal or State Project - Form FS-10

Purpose:

- ❑ To assist the local applicant agency in planning for necessary project expenditures.
- ❑ To provide the State Education Department with a specific itemization of proposed project expenditures.
- ❑ To provide the State Education Department and the Office of the State Comptroller with the necessary documentation upon which payments can be based.
- ❑ To ensure that expenditures made by the local participant agency have the prior approval of the State Education Department.

Submittal Time:

The specific deadline date is established by each State Education Department program office. A project application, including the proposed budget, must be received by the State Education Department in substantially approvable form before the beginning of any project activities and prior to the incurrence of any project obligations by the local applicant agency.

Upon receipt by the State Education Department Program office, projects are assigned an approved "funding date". This is the earliest possible date for encumbrances in the operation of the project and may be found on page 7 of the FS-10. Expenditures made prior to the approved funding date of the project will not be reimbursed.

A copy of the approved FS-10, with program and finance office approval, will be returned to the applicant agency.

PROPOSED BUDGET FOR THE OPERATION OF A FEDERAL OR STATE PROJECT
FS-10 (1/91)

BASIC PROJECT INFORMATION

Agency Code: | | | | | | | | | | | | |

Federal/State Program: _____

Contact Person: _____

Agency Name: _____

Mailing Address: _____
Street

_____
City State Zip Code

Telephone #: ( ) _____ _____
County

Project Operation Dates: From ___/___/___ To ___/___/___

INSTRUCTIONS

Complete this form by pen or typewriter. High quality computer generated reproductions of this form may be used. Submit the original budget and the required number of copies along with the completed application directly to the appropriate State Education Department program office. **Chief Administrator's Certification (page 7) must be completed with original signature.**

1. Enter whole dollar amounts only.

2. Full-time equivalent is expressed in whole numbers and decimals. One full-time equivalent (FTE) equals one full-time person working the entire project year. A teacher working one day per week would equal .2 FTE. For short-term work, indicate an hourly or per diem rate.

3. Prior approval by means of an approved budget or budget amendment (FS-10-A) is required for:

   - All personnel positions
   - All equipment items having a unit value of $300 or more
   - All out-of-state travel
   - Minor remodeling
   - An increase in a budget subtotal category (professional salaries, purchased services, travel, etc.) by more than 10 percent or $500, whichever is greater
   - An increase in the total budget amount.

4. Public school districts and BOCES must obtain approval from the Bureau of Facilities Planning in the State Education Department for building space purchased or rented to house children.

5. For further information on budgeting, please refer to the Fiscal Guidelines for Federal and State Aided Grants or call the Bureau of Federally Aided Programs at (518) 474-4815.

SALARIES FOR PROFESSIONAL PERSONNEL: Code 15

Do not include central administrative staff which are considered as indirect costs.

Specific Position Title	Full-Time Equivalent	Annual Rate of Pay	Project Salary
		Subtotal - Code 15	

SALARIES FOR NONPROFESSIONAL PERSONNEL: Code 16

Include salaries for teacher aides, secretarial and clerical assistance, and for personnel in pupil transportation and building operation and maintenance. Do not include central administrative staff which are considered as indirect costs.

Specific Position Title	Full-Time Equivalent	Annual Rate of Pay	Project Salary
		Subtotal - Code 16	

PURCHASED SERVICES: Code 40

Include consultants (indicate per diem rate), rentals, tuition, and other contracted services. Copies of contracts may be requested by the Department.

Description of Item	Provider of Services	Calculation of Cost	Proposed Expenditure
		Subtotal - Code 40	

SUPPLIES AND MATERIALS: Code 45

Include computer software, library books, and equipment items under $300 per unit cost.

Description of Item	Quantity	Unit Cost	Proposed Expenditure
		Subtotal - Code 45	

TRAVEL EXPENSES: Code 46

Include pupil transportation, conference costs, and travel of staff between instructional sites. Specify agency approved mileage rate for travel by personal car or school-owned vehicle.

Position of Traveler	Destination and Purpose	Calculation of Cost	Proposed Expenditure
		Subtotal - Code 40	

EMPLOYER CONTRIBUTION FOR EMPLOYEE BENEFITS: Code 80

Rates used for project personnel must be the same as those used for other agency personnel.

Item		Proposed Expenditure
Social Security		
Retirement	New York State Teachers	
	New York State Employees	
Health Insurance		
Workers Compensation Insurance		
Unemployment Insurance

B. Request for Funds for a Federal or State Project - Form FS-25

Purpose:

- ❑ To report expenditures on Federal or State funded projects.
- ❑ To request additional payments for Federal or State funded projects.

Submittal Time:

- ❑ Project Budgets $100,000 And Less

The FS-25 should be filed at the end of each calendar quarter, beginning with the first quarter of operation. Payments will be made based upon projected cash need for the next quarter.

- ❑ Project Budgets Greater Than $100,000

The FS-25 should be filed at the end of each month, beginning with the first month of operation. Payment will be made based upon projected cash need for the next month.

INSTRUCTIONS

This report must be completed for each approved Federal or State Grant funded through the State Education Department. Send **one signed original and one copy** of this report directly to the Bureau of Federally Aided Programs for each project. (See the filing requirements below for Special Legislative Projects).

A first payment is made automatically upon initial approval of a project application and budget. In order to receive additional funds, this report must be filed until the project has terminated or payments of 90 percent of the total project budget have been made.

To facilitate processing, it is requested that this report be filed with this Department no later than 10 days after the end of the report period.

FILING SCHEDULE

Projects $100,000 and less:	This report should be filed at the end of each calendar quarter beginning with the quarter during which the first project payment is received.
Projects greater than $100,000:	This report should be filed at the end of each month after the first project payment is received.
Special Legislative Projects	For Special Legislative Projects, **one original and two(2) copies of this report are required.** This report should be filed when the agency has incurred expenditures equal to 75% of the approved budget total. Upon SED approval a payment will be processed equal to 50% of the approved budget total. **(A program progress narrative report must accompany this report.)**

C. Request for Out-Of-State Travel Approval for a Federal or State Project - Form FS-60

Purpose:

- To request the necessary prior approval for out-of-state travel from the State Education Department for Federal or State funded projects.
- To enable the local agency and the State Education Department to maintain a complete record of approved out-of-state travel.

Submittal Time:

The FS-60 may be submitted at any time between the date the original project application is submitted to the State Education Department and the termination date of the project, as long as prior approval requirements are met.

Special Instructions:

- The FS-60 may not be used to increase the amount of funds budgeted for travel. Any necessary increase in the amount budgeted for travel must be done through a Proposed Amendment for the Operation of a Federal or State Project (Form FS-10-A).
- All travel expenses and reimbursement rates must conform to local agency travel policy.

D. Proposed Amendment for a Federal or State Project - Form FS-10-A

Purpose:

- To request prior approval from the State Education Department for any budget changes to Federal or State funded projects.
- To enable both the local agency and the State Education Department to maintain an accurate and up-to-date record of approved changes in a project budget.

Submittal Time:

The FS-10-A may be submitted at any time between the date the project receives the written approval of the State Education Department and the approved termination date of the project as long as prior approval requirements are met. However, the State Education Department program office may set an earlier final date for submittal of project amendment forms. Please check with the appropriate program office regarding possible deadlines.

Special Instructions:

- The date of receipt of an amendment is the earliest possible funding date for encumbrances based on that amendment. Amendments may not be submitted after the project termination date with the exception of those that reduce budget totals.
- The Amendments should be submitted directly to the State Education Department program office. Approved amendments are then forwarded to the Bureau of Federally Aided Programs. The necessary changes to the FS-10 will be made and a copy of the approved amendment will be returned to the local agency.

E. Final Project Expenditure Report - Form FS-10-F

Purpose:

- To report to the State Education Department all reimbursable expenditures made by the agency in an approved project in order that such expenditures may be compared with approved budget costs for the purpose of determining final approved expenditures.
- To enable the State Education Department to report all reimbursable expenditures to the Office of the State Comptroller pursuant to State audit requirements.
- To serve as the basis for a final project payment to the local agency.

Submittal Time:

The FS-10-F should be prepared after all encumbrances have been liquidated. Reports for Federal projects are due within **90** days following the end of the project, although in certain programs, the State Education Department program office may impose earlier due dates. All State project final expenditure reports are due within **30** days following the end of the project.

Special Instructions:

- Expenditures for only one project may be reported in each FS-10-F. Copies of documentation such as claim forms, travel vouchers and invoices should not be sent with the FS-10-F. Such documentation must be retained in the local agency project file. If it is necessary for a State auditor to have this material, it will be requested.
- An audit of each FS-10-F, following audit guidelines (see Section III) is conducted by the Bureau of Federally Aided Programs to determine the approved final cost of the project.
- Following the verification of final project costs, a final payment, if due, will be processed. If there has been an overpayment, a refund will be requested. Refunds should be submitted only upon request.

III. AUDIT GUIDELINES

A. General Criteria

1. Allowable Costs

To be considered allowable for reimbursement, costs must meet the following general criteria:

- ❑ Be necessary and reasonable for proper and efficient operation of the program.
- ❑ Be permissible under applicable State and/or Federal laws and regulations.
- ❑ Conform to any limitations or exclusions set forth in these guidelines, laws or regulations, or other governing limitations as to types or amounts of cost items.
- ❑ Be the net amount after applying all applicable credits, such as purchase discounts, project-generated income, and adjustments of overpayments.
- ❑ Must not be included as a cost in any other project or grant.

2. Local Responsibility

Projects must operate under the jurisdiction of the local board of education or other appropriate governing body and are subject to at least the same degree of accountability as all other expenditures of the local agency. The local board of education or other appropriate governing body is responsible for the proper disbursement of, and accounting for, project funds. Written agency policy concerning wages, mileage and travel allowances, overtime compensation, or fringe benefits, as well as State rules pertaining to competitive bidding, safety regulations, and inventory control must be followed. Documentation of expenditures (claim forms, invoices, travel vouchers, receipts, etc.) must remain on file locally for field audit purposes.

3. Funding Dates

It is the practice of the State Education Department to use the earliest possible date for funding purposes. This may be as early as the date the project application is received in the State Education Department in substantially approvable form but may not be earlier than the date; when the State or Federal funds became available for obligation. Due to delays inherent in the project review process, written notification of approval sometimes may not occur until after the approved funding date; however in such cases, expenditures occurring within the approved project funding dates are still allowable. The project funding dates are indicated on page 7 of the FS-10.

4. Project Encumbrances

All project encumbrances must be made within the approved funding period of the project. Project encumbrances for both Federal and State projects are incurred on the following basis:

If the encumbrance is for:	The encumbrance is made:
a. Acquisition of real or personal property.	On the date on which a binding written commitment to acquire the property is made.
b. Personal services by an agency employee.	When the services are performed.
c. Personal services by a contractor who is not an agency employee.	On the date on which the agency makes a binding written commitment to obtain the services.
d. Performance of work other than personal services.	On the date on which the agency makes a binding written commitment to obtain the work.
e. Public utility services.	When the agency receives the services.
f. Travel.	When the travel is taken.
g. Rental of real or personal property.	When the agency uses the property.

5. Prior Approval

Careful attention must be given to be certain that the following expenditures have received written prior approval from the State Education Department:

- ❑ All out-of-state travel.
- ❑ All equipment items having a unit value of $300 or more.
- ❑ All personnel positions.
- ❑ Minor remodeling.
- ❑ An increase in a budget subtotal category (salaries, purchased services, travel, etc.) by more than 10 percent or $500, whichever is greater.
- ❑ An increase in the total budget grant amount.

B. Specific Costs

1. Indirect Costs

Indirect costs can be broadly defined as central administrative costs and certain other organization-wide costs that are incurred in connection with a project but that cannot readily be identified with the project (e.g., payroll preparation, central purchasing). An indirect cost rate may be established that, when applied to the direct costs of a project, generates an amount to be used in support of such central administrative costs.

Indirect costs can be claimed only through the use of an indirect cost rate in State funded programs and Federal programs funded through the U.S. Department of Education (USDOE). Central administrative costs cannot be directly budgeted in such programs. In programs funded from sources other than the USDOE (e.g., U. S. Department of Labor), a local agency may budget central administrative costs directly, but only if the local agency is unable to obtain an approved rate from the Federal government. However, final reimbursement of central administrative costs in such instances will require documentation that the expenditures were incurred in connection with the project.

Two types of indirect cost rates are used with programs funded through the New York State Education Department:

- ❑ Restricted Rate - The restricted rate is applicable to all State programs and those Federal programs with regulatory language requiring funds to supplement and not supplant state and local funds (e.g., ESEA Chapters 1 and 2, Vocational Education). Restricted rates generally range from 1 percent to 7 percent.
- ❑ Nonrestricted Rate - The nonrestricted rate is applicable to those federally aided programs that do not have supplement/supplant provisions (e.g., National School Lunch Program, Breakfast Program). Nonrestricted rates generally range from 10 percent to 25 percent.

Rate Computation -

The procedures used to compute indirect cost rates vary depending on the type of local educational agency, as follows:

- ❑ School Districts - Indirect cost rates for school districts are computed annually by the Bureau of Federally Aided Programs on the basis of data contained in each district's Annual Financial Report (Form ST-3). Districts are then notified in the beginning of the calendar year of the rates to be used during the subsequent program year.
- ❑ New York City, Buffalo, Rochester, Syracuse, and Yonkers - Indirect cost rates for the "Big Five" city school districts are computed annually by the Bureau of Federally Aided Programs on the basis of data contained in the appropriate application forms (Forms FA-87-R Cities and FA-87-NR Cities). The applications are mailed to these districts at the beginning of each calendar year for use in establishing rates for the subsequent program year.
- ❑ BOCES - Indirect cost rates for BOCES are computed annually by the Bureau of Federally Aided Programs on the basis of data contained in both an application (Form FA-87-BOCES) and in the BOCES

Annual Financial Report (Form SA-111). Applications are mailed to each BOCES at the beginning of each calendar year and are used to establish rates for the subsequent program year.

- Other Agencies - Local agencies other than school districts and BOCES may negotiate indirect cost rates through the Federal government. However, in cases where a restricted rate has not been established, a local agency may, subject to the approval of the State Education Department program office, use a rate of up to 8 percent without having to apply to the Federal government. It should be noted that this provision does not apply to programs funded through Federal agencies other than the USDOE (e.g., Job Training Partnership Act/U.S. Department of Labor). Programs funded from other Federal sources require that all indirect cost rates be negotiated through the appropriate Federal agency.

Reimbursement of Indirect Costs -

Indirect costs are budgeted on page 5, Code 90 of the FS-10. The approved rate is applied against the Direct Cost Base and results in an amount available for indirect cost purposes. However, it should be noted that the rate allowable for individual projects may be negotiated downward by the respective program offices of the New York State Education Department.

The amount of actual reimbursement of indirect costs is computed on page 5 of the FS-10-F by applying the approved rate to actual Direct Cost Base expenditures. If the actual project cost base expenditures are less than those budgeted, the amount of indirect cost funds reimbursed will be reduced accordingly.

Budget and claim procedures for indirect costs in school food service programs vary by agency and program. For specific instructions regarding use of the nonrestricted rate in school food service programs, contact:

Child Nutrition Reimbursement Unit
New York State Education Department
Rm. 544, Education Building
Albany, NY 12234
(518) 474-3926

2. Approval of Personnel Positions

Because of the effect that the addition, deletion, or change in number or type of personnel in a project can have on the program actually in operation at the local level, reimbursement is limited to the actual number and type of positions that have received prior approval through an approved budget or amendment.

The Bureau of Federally Aided Programs expects that the number of positions will be clearly indicated. Therefore, it is imperative that a budget indicate the number of Full-Time Equivalent (FTE) positions for each particular position title. Full-Time Equivalent is the amount of time expressed in a whole number or a decimal that an employee works in the project. For example, two half-time project teachers working the full length of the project equal one FTE, while an aide working one day a week for the whole project year equals .20 FTE. The actual number of FTE positions on the final claim for reimbursement cannot exceed the approved total number of FTE positions, although there may be more than one person actually serving in a particular position title.

Under supplement/supplant provisions no full-time person or position may be reimbursed for work under a federally aided program if employed in the same or a similar position prior to the implementation of the federally aided program. Furthermore, remuneration of a regular full-time employee for work performed on Federal program activities is allowable only if:

- the regular employee is relieved of some or all of his/her former duties and a replacement is engaged to assume them, or

- the regular employee is assigned by the local participant agency to perform Federal program activities that are in addition to his/her regular duties. The nature of such duties and the time at which they are to be carried out should in no way coincide with or duplicate the requirements for, or job description of, his/her regular position as established prior to the agency's involvement in the Federal program.

3. Substantiation of Personnel Costs

While copies of payroll records should not be filed with the FS-10-F, time and effort records for each individual employed in the project must be maintained at the local level. These records should include (a) name of individual, (b) title of position as it appears on the FS-10, (c) period of employment and (d) total amounts paid, as well as the basis for allocating costs to Federal or State projects.

4. Purchased Services

Purchased services include the hiring of personnel from outside the agency as consultants, as well as rentals, admission fees, tuition costs, telephone, repairs to equipment, and contracted services. When budgeting purchased services, include as much information as possible on the purpose of the expenditure and the cost basis. The cost basis may be an amount per day for a certain number of days or an amount per person or item. Copies of contracts may be requested by the Bureau of Federally Aided Programs.

When there exists an employer-employee relationship between the local agency and project personnel, such personnel should not be budgeted as consultants. The existence of an employer-employee relationship is determined by the degree of control exercised by the employer. An employee is usually trained by the employer, is directed in how work is to be performed, and has a continuing work relationship with the employer. An independent consultant decides when, where, and how the work is to be performed, is paid according to an agreed-upon performance or result of work and is free to contract with and work for others.

Rental costs are allowable only if the local participant agency is renting from an outside agency or vendor. Rent cannot be charged when the local participant agency actually owns the space or item involved.

Unless the project necessitates the installation of separate telephone facilities, monthly service charges may not be prorated and charged as a project expense, however, toll or local usage charges specifically for project purposes are allowed.

5. Travel Expenses

Actual expenses claimed against a project are limited to the maximum amounts authorized by local participant agency policy. For agencies where such written policy does not exist, expenditures are allowed at no more than the State-approved maximum travel rates that were in effect at the time the travel occurred.

When local agencies provide their own school bus transportation for a project, reimbursements shall be limited to the approved rate per mile for operational costs. Only the salaries of individual bus drivers and monitors will be allowed in addition to such costs, and the salaries should be budgeted and claimed under Code 16, Salaries for Nonprofessional Personnel.

6. Supplies and Equipment

All expenditures claimed for reimbursement must be clearly reported showing the purchase order date, vendor name, check, or journal entry number and amount expended. Purchase orders may not be issued before the approved project funding date or after the project termination date. In addition to the actual cost of each item, costs of

shipment are considered part of the purchase price of such items and are eligible for reimbursement.

Internal transactions, such as supplies taken from agency stock (warehouse, supply room, etc.), should be so indicated on the final claim. The date of the transaction or requisition date should be listed along with any identifying data such as journal entry. Where project personnel have made cash purchases and are reimbursed, the name of the commercial vendor should be given as well as the name of the individual making the purchase.

Magazine subscriptions for instructional use may be approved for periods extending beyond the 12 months of the fiscal year in which the project was funded if it is evident that the rate during the longer period of time would be less than would be the rate for single year subscriptions. In no case will a subscription for longer than 36 months be reimbursed.

The cost of mailings and postage are allowable charges. Such costs should be documented through either the internal transaction or vendor payment procedures previously discussed.

In federally aided projects, all equipment with a purchase cost of $300 or more must be marked to indicate Federal ownership and maintained on an inventory list which includes the following information:

- ❑ A description of the equipment, including manufacturer's model or serial number.
- ❑ Identification of the grant under which the recipient agency acquired the equipment.
- ❑ Information on how the Federal share of the cost was determined if the cost was shared by the recipient agency.
- ❑ Acquisition date and unit acquisition cost.
- ❑ Location, use, and condition of the equipment and the date this information was recorded.
- ❑ All pertinent information on the ultimate transfer, replacement, or disposition of the equipment.

7. Utilities

In claiming expenditures for utilities, the cost must be directly identifiable with, and attributed to, the individual project. Furthermore, the agency must provide the basis for calculating the pro rata charge of the costs to the project.

8. School Lunch Reimbursement Under Federal and State Programs

It is State Education Department policy not to pay for costs of any food in Federal and State aided projects in an agency which also conducts a feeding program eligible for reimbursement under the National School Lunch Act, Child Nutrition Act, or Summer Food Service Program for Children. However, since the National School Lunch Act does not provide for snacks (except milk), these costs are eligible for reimbursement, if specifically approved, under most grant programs.

9. Fringe Benefits

Fringe benefit rates for Federal and State funded project staff must be the same used for other staff of the local agency. Fringe benefits may only be claimed for the salaries actually expended in the Federal or State project.

Unemployment insurance may be claimed by local educational agencies and not-for-profit agencies only if the local agency has elected either the Tax Method or the Direct Reimbursement with Special Reserve Fund options for covering these costs. Payments for direct reimbursement without a reserve fund may not be claimed. All profit-making agencies must be under the Tax Method.

10. New York State Sales Tax Allowance

Tax exempt agencies will not be reimbursed for New York State sales tax charges since they are not required to pay tax when purchasing supplies, equipment, etc. for the agency. Likewise, the staff of such agencies, while on official business, are also exempt from New York State Sales Tax and reimbursement will not be allowed for those charges. Other persons paid by the project, such as consultants, may be required to pay the New York State Sales Tax on purchases of food and lodging, and in such cases, are eligible for reimbursement.

11. Interest and Finance Charges

Interest or finance charges incurred by the local participant agency are not allowed for reimbursement in Federal or State aided projects.

12. Interest Earned

Interest earned from State and Federal grant funds received through the State does not need to be reported. However, it is expected that requests for payments of Federal and State aid through the filing of the FS-25 will be based on actual expenditure needs and that the time between receipt of such payments and their disbursement will be minimized as much as possible.

13. Audit Costs For Federally Aided Projects

In accordance with the Single Audit Act of 1984, the cost of a "single audit" performed by the participant agency's independent auditor should be recovered from indirect costs. However, in cases where an agency lacks an indirect cost rate, the pro rata share of the single audit cost may be claimed as a direct cost. Inasmuch as the performance of the audit often occurs after the project ending date, reimbursement of the audit cost, even though the independent auditor has not yet been paid, is allowable subject to the following conditions:

- An agency must contract with an independent auditor prior to the project ending date.
- The contract must specify a cost for the audit. The agency will then budget the pro rata share of the Federal portion of the audit cost to the project.
- Final reimbursement will be based upon substantiation of the pro rata share of the audit cost, as well as any internal transactions identifying audit charges to the project.

C. Audit Procedures

1. Submission of Final Project Expenditure Reports

One original and one copy of the FS-10-F should be submitted directly to the Bureau of Federally Aided Programs. Certain program offices may also require submission of a copy of the report, which should be sent under separate cover. The FS-10-F must be submitted within 30 days of the close of the project for State programs and within 90 days for Federal programs. It is important that projects be closed in a timely manner to avoid the loss of Federal or State funds. To ensure accuracy the FS-10-F should be completed by staff of the local agency business office. Also note that all costs are to be reported in whole dollar amounts only.

2. Audit Correspondence

During the audit of the FS-10-F, local agencies are notified of possible audit disallowances on the Request for Audit Information form (Appendix A). Local agencies have 15 days to respond to this notification. If the requested information is not received, questioned costs will be deleted and the final cost calculated. The Verification of Audit form (Appendix B), indicating the balance to be paid or request for refund, will be sent to the local agency. The above procedures have been designed to inform local agencies as fully as possible of the audit findings of the State Education Department and to give

those agencies adequate time to review such findings.

3. Reopening of Audits

Once a project has been audited and closed, the local agency is allowed 90 days to reopen a project for further review. Requests should be submitted in writing to the Bureau of Federally Aided Programs. If no request for additional review is made within this period, the audit findings are considered final. However, the State Education Department reserves the right to reopen a project after it has been closed to either recover any unallowed costs or reimburse any additional costs that have been disclosed through separate audits or reviews.

THE STATE EDUCATION DEPARTMENT
Office of Educational Finance and Management Services
Bureau of Federally Aided Programs-Rm. 542 EB
Albany, New York 12234

STATE USE ONLY

VERIFICATION OF AUDIT

Date: _____ Project #: _____

This office has completed its audit of the attached final expenditure report.

The results are as follows:

Amount accepted by audit	$	(1)
Aid advanced by State	$	(2)
Balance due agency	$	(3)
Amount of overpayment	$	(4)

☐ Please issue a check in the amount of overpayment (item 4) to "Treasury of the State of the New York" and send directly to this office. **If refunds are due on more than one project, separate checks must be submitted for the amount due on each project.** Action on this matter is expected within thirty (30) days of the date of this notice. A copy of this notice should be enclosed with the refund check.

☐ A check in the amount of the balance due to your agency (item 3) will be mailed to you within the next thirty (30) days.

☐ A refund check is not required. The overpayment on this project has been transferred to project number _____.

If you need any additional information or have any questions concerning this audit, please contact this office at (518) 474-4815.
